

CLIMATE FINANCE TRANSPARENCY MECHANISM (CFTM)

Developing a Climate Finance Transparency Mechanism: Experiences from Bangladesh

07 December 2018

Enhancing Climate Finance Transparency – What We Do (In brief)

Strengthen the MRV mechanism of the Government organizations

- Partnership with NDA, NIEs, BCCT, Private Sectors
- Collective actions to strengthen capacity especially in M&E mechanism

Sharing of Climate Finance Information

- Set up as part of GoB's transparency initiative (e.g. AIMS Database) – website that records and processes information on donort-funded development activities and related aid flows in the country.
- Integration of policy markers on climate change adaptation and mitigation as per the Rio markers in AIMS Database

Capacity Building on Accessing & Utilization of Funds

- Research on the state of climate finance (GOs and NGOs)
- Capacity Building of the Government Organizations (NDA, NIEs, EEs), NGOs,/CSOs and private sector in accessing national & international fund
- Enhanced the Government of Bangladesh's ability to track international funding on climate change action in the country

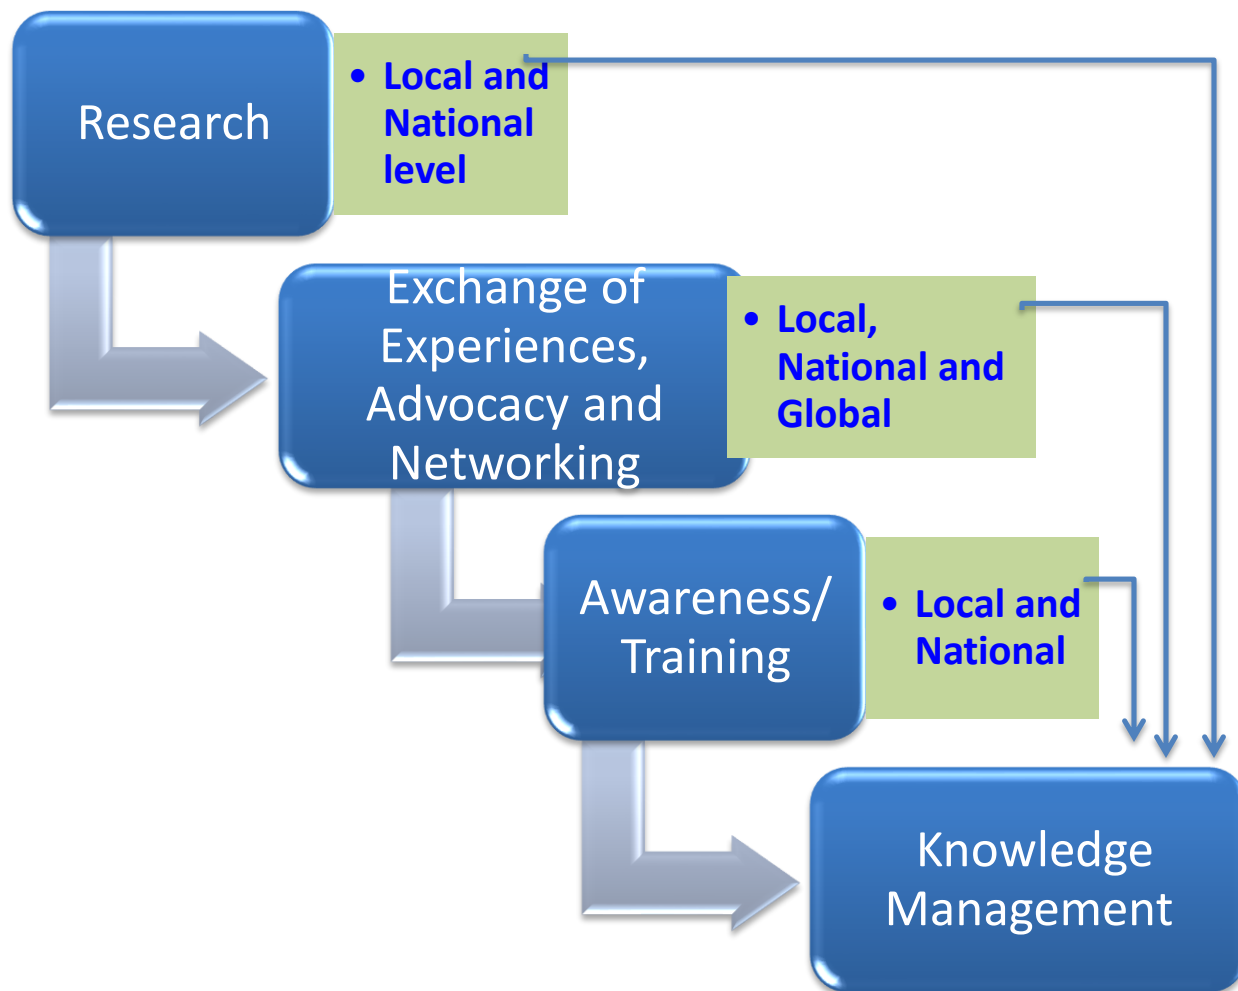

Peoples voice on climate change and finance at national and Global level

- Local level case studies, experiences, “climate council” networking on financing climate change adaptation and mitigation (CSRI and Coast BD for local actions)
- Local, national and Global level discussions/events e.g. ICCF 2018

Policy Practice and Reform

- Technical Support to Government, private sector to improve governance in tackling the impact of climate change (through practice and reform of policy and procedure and strategy.
- Developing policy brief, workings papers, news articles, scientific papers
- Establishing local level networks to monitor climate change projects

Enhancing Climate Finance Transparency- How and What level?

5 Sensitization workshop with 125 Government officials

2 Training Workshop on Preparation of Climate Change Project Proposal (50 Participants from Private sectors, NGOs, CSOs and Govt officials)

2nd INTERNATIONAL CONFERENCE ON CLIMATE FINANCE

ICCF 2019

Challenges and Opportunities of Climate Finance

CLIMATE FINANCE TRANSPARENCY MECHANISM (CFTM)

9-10 | DHAKA
MARCH | BANGLADESH

Objectives

The objectives of the 2nd International Conference on Climate Finance (ICCF) 2019 are:

- To discuss existing and potential opportunities and challenges of climate finance.
- To enable representatives from relevant sectors to exchange knowledge and experiences in climate finance.
- To enhance financial contribution and political ownership of Parties to UNFCCC, improve climate governance and ensure access to climate finance.
- The conference will have ample opportunities for intensive discussions, interactions and question and answer sessions.

Call for application

Interested individuals are encouraged to participate in ICCF 2019 by applying through the link given below:

<https://goo.gl/jsHKVA>

Applicants are requested to send abstracts within the deadline stated below. The abstract must be in English and no more than 250 words. Submitted abstracts will go through a review process.

Important dates

Abstract Submission	
Sponsored presenters	15 December 2018
Self-funded presenters	15 January 2019
Abstract Acceptance Notification	
Sponsored presenters	30 December 2018
Self-funded presenters	22 January 2019
Poster Submission	15 February 2019
Presentation slides Submission	15 February 2019
Conference	9 – 10 March 2019

CLIMATE FINANCE TRANSPARENCY MECHANISM (CFTM)

Climate Finance Transparency Mechanism (CFTM) has been initiated in January 2017 and is being implemented by a consortium (Consortium-1) among the International Centre for Climate Change and Development (ICCCAD), the Centre for Climate Change and Environmental Research (C3ER), BRAC University and the Bangladesh Centre for Advanced Studies (BCAS) in association with the British Council. Consortium-2 of this project constitutes Campaign for Sustainable Rural Livelihoods (CSRL), and Coastal Association for Social Transformation Trust (COAST Trust).

The CFTM project is an innovative project that would not only enable the funding for climate change in Bangladesh to be more effective in helping the most vulnerable communities become better adapted to climate change impacts, but would also help improve the overall levels of transparency in governance in general in Bangladesh. The goal of this project is to increase the efficacy of climate change funds both from government and donors in tackling the impacts of climate change in Bangladesh.

We gratefully acknowledge the support from PROKAS, British Council and UKAID
