■ Requested

LIST OF APPROVED LDC

1. Liberia - 2017
2. Nepal - 2017
3. Democratic Republic of the Congo - 2018
4. Niger - 2018
5. Bangladesh - 2018
6. Mauritania - 2018
7. Bhutan - 2019
8. Benin - 2019
9. Malawi - 2019
10. Haiti – 2019
11. Madagascar – 2019
12. Somalia – 2019

GCF SUPPORT TO LDCS

- **Accessing GCF NAP readiness funding**
 - Partnership with LEG and other stakeholders (including relevant DPs);
 - Prioritizing LDCs for engagement through country programme activities
 - Actively soliciting discussions with LDCs in line with LEG ambition of formulation of NAPs by 2020
- **Sharing of information to support tracking progress on formulation and development of NAPs**
 - Prioritising LDCs for approval of adaptation planning submissions
 - Continue providing updates on status of implementation of NAPs to LEG & AC
 - Partner with LEG to encourage countries to resubmit proposals that have been with NDAs and DPs in excess of 3 months
- **Supporting the strategy and organization of the NAP Expos**
 - Continue to support LEG and LDCs on adaptation planning through the NAP Expo

GCF SUPPORT

- **Strategy for technical support and training on NAPs Technical assistance**
 - Technical Assistance to countries using a national or regional delivery partner to design adaptation planning proposals in line with GCF criteria but centred on strong country ownership (e.g. Mali, Tuvalu, Chad)
 - Technical support to NAP Workshops e.g. NAP Expo
- **Updates on supplements to the NAP technical guidelines**
 - Providing feedback on supplementary guidelines on gender, water sector in NAPs
- **Gaps and needs on adaptation for the LDCs**
 - Assistance to countries to address gaps in building the climate science to support programmes/projects/policies
 - WMO/GCF pilot study including LDCs [Cambodia (18-22 Nov.) and DRC (21-25 Oct.)]
 - Partnering with WRI through a Community of Practice on Adaptation Planning to highlight good case studies and knowledge management products including in LDCs

- **Enabling countries to effectively advance and implement actions in NAPs**
 - Effectively utilize the GCF review criteria to ensure proposals are well founded (good science and planning information) to facilitate successful and impactful implementation
 - Consideration of a multiple-sequential-proposal approach to formulate NAPs and identify priority actions/activities for implementation based on country ownership
 - Delivery of National Adaptation Plan – early stage deliverable
 - Encouraging countries to build capacity using national or regional DPs. Where International DPs are necessary to build capacity in a national institution for later stage implementation of actions
 - Encourage countries to increase private sector and civil society partnership towards championing aspects of a national adaptation finance strategy
 - Leveraging the USD 3M investment into larger full finding project proposals via development of concept notes (including for the GCF)
