

Reducing Emissions from Deforestation and Forest Degradation

Forest Carbon Partnership Facility

Capacity Development for REDD

PNG/CfRN Side Event, CoP14

Poznan, December 3, 2008

Main Areas of Capacity Building in FCPF

- **Forest inventories**
 - Detect forest changes in forest cover
 - Measure carbon stocks
- **Reference scenarios**
 - How much has a country emitted in the past?
 - How much is it likely to emit in the future?
- **Implementation framework**
 - Legal and institutional framework for REDD
- **Economic analysis**
 - What is the cost of REDD?
- **General capacity development on REDD**
 - Up to countries to determine their needs
 - Also FCPF-wide focus on Indigenous and Forest-Dependent Peoples

Delivery Mechanisms

- **FCPF Readiness Fund + Grant from the Global Environment Facility**
 - Expert meetings, global and regional workshops
 - Grants to countries to help them prepare and implement Readiness Plans
 - Grants to Indigenous and Forest-Dependent Peoples' organizations
- **Cooperation with partners**
 - Coalition for Rainforest Nations
 - GTZ
 - UN-REDD Programme

THANK YOU!
