

Multilevel action & the ambition loop: implementing the Glasgow Climate Pact to keep 1.5 alive

When multilevel actors unite and push each other to go further and faster, the resulting ambition loop unlocks the maximum potential for impact and innovation. Join national, subnational, business and community actors to examine this in practice.

We'll talk about why collaboration is key to implementing the Glasgow Climate Pact and driving ambition to keep 1.5 alive. And to ensure that ambition is not the end of the journey, we'll also discuss the role of innovative technologies – such as satellites – in driving global action and accountability.

The event will feature a keynote speech from COP26 President, Alok Sharma and two high-level panels from government, business and civil society.

Date:	Saturday 12 November
Time:	13:15 – 14:45 (GMT+2)
Location:	Blue Zone, Memphis (300 people capacity)
Format:	Keynote speech from COP26 President; Panel discussions
Partners:	COP26 Presidency, Under2 Coalition, ClimateTRACE
