10:30 – 12:30

# Keeping Track of Tradable Emissions Units

OECD/IEA Climate Change Expert Group

EU Pavilion, Room Brussels  
Slot kindly provided by Chile and Estonia

This side event will explore what is needed to create a stable and reliable greenhouse gas emissions unit accounting framework after 2012 that provides governments, investors and other stakeholders with confidence in the environmental integrity of traded units, while ensuring that emissions reduction activities remain attractive for investors.

Facilitator: **Fernando Tudela**, Mexico and CCXG Chair

**Andrew Prag**  
OECD

**Juergen Lefevere**  
European Commission

**Juan Pedro Searle**  
Chile

**Derik Broekhoff**  
Climate Action Reserve
