

Concept Note COP 29 Side Event

Article 6.2 Implementation for High Integrity: Updates, Lessons and Challenges

Nov 16, 2024 (Saturday) | 13:15-14:45 (90 min.)

Side Event Room 1

Organised by A6IP (IGES), GEC, MOEJ, FOEN and KliK Foundation

Concept note:

The implementation of the cooperative approach under Article 6.2 is gaining momentum as more actors enter the space and gain experience. The side event will provide an overview of the status of cooperation and current mitigation activities as well as measures for ensuring high integrity. The focus will be on reflecting on challenges and lessons learned from the perspective of both acquiring and host countries as well as the private sector. This will help interested countries and activity owners to better understand the A6 mechanism and the role it can play for high-integrity carbon markets.

MC: GEC
