

# The ENCOFOR toolbox for CDM-AR

the result of a learning by doing experience

Introduction by Bart Muys  
K.U.Leuven

<http://www.joanneum.at/encofor>

# Agenda

## 1. Introduction

ENCOFOR: the project, its aims and outcomes – Igino Emmer, Face Foundation, the Netherlands

The ENCOFOR toolbox: its contents and functionality – Bart Muys, K.U.Leuven, Belgium

## 2. The tools

ENCOFOR Land Suitability Model: is there any land available for CDM-AR and is it suitable? – Antonio Trabucco, International Water Management Institute, Sri Lanka, and Lou Verchot, ICRAF, Kenya

ENCOFOR DSS: a decision support throughout the project development cycle – Neil Bird, Joanneum Research, Austria

ENCOFOR Financial DSS: a cost/benefit calculator for CDM-AR – Wolfram Kägi, BSS, Switzerland

ENCOFOR Social and Institutional Impact Tools – Carmenza Robledo, Intercooperation, Switzerland

ENCOFOR Environmental Impact Tool – Bart Muys, K.U.Leuven, Belgium

## 3. The applications

Applying ENCOFOR tools for CDM-AR development in Eastern Africa: experiences and participatory aspects – Timm Tennigkeit, Unique Forests, Uganda

PDD development using ENCOFOR tools: the Latin-American experience – Anko Stilma, Cetefor, Bolivia, and Luis Fernando Jara, Profafor, Ecuador

Legal matters during CDM-AR development - Charlotte Streck, Climate Focus, the Netherlands

## 4. Discussion

Sustainable CDM-AR development with ENCOFOR tools: an outlook – Igino Emmer, Face Foundation, the Netherlands

Time for questions

The tools will be made public on 19 June 2007 at: [www.joanneum.at/encofor](http://www.joanneum.at/encofor)

Available 19 June 2007 at [www.joanneum.at/encofor](http://www.joanneum.at/encofor)

ENCOFOR

an EU-funded project for the design of  
sustainable CDM forestry projects

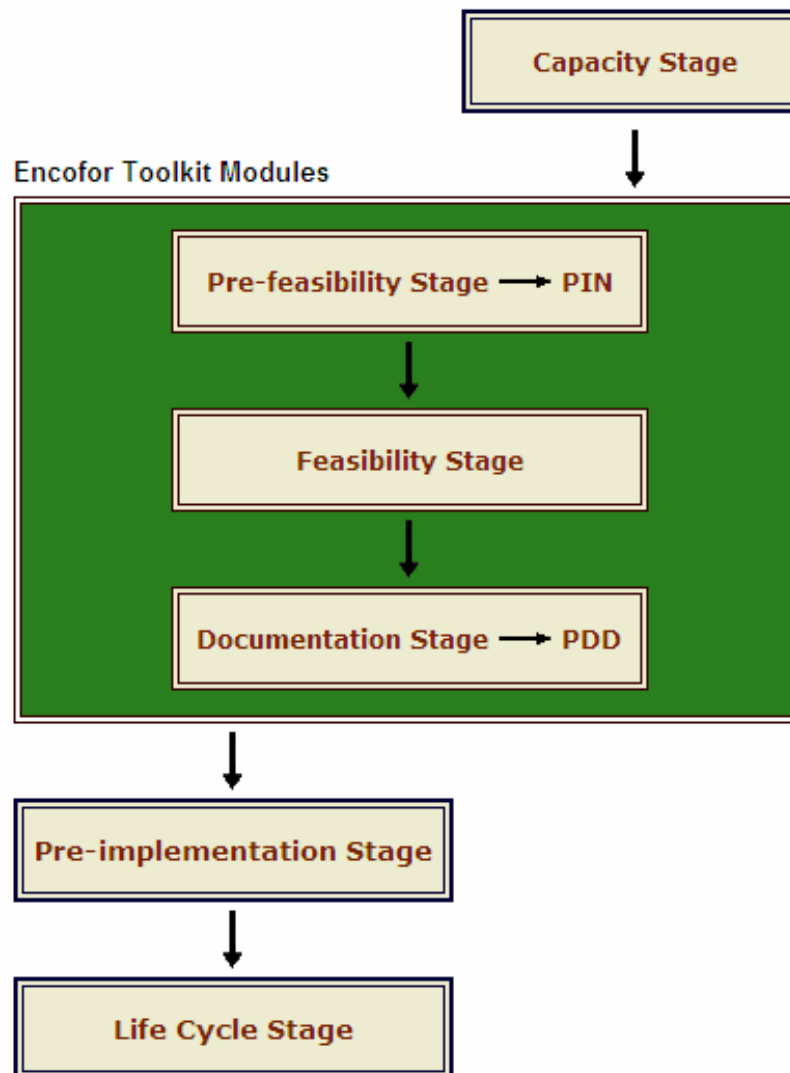

## TOOLS

- ▶ [How to use these tools](#)
- ▶ [Demonstration of tools](#)
  - ▶ [Pre-feasibility Stage](#)
  - ▶ [Feasibility Stage](#)
  - ▶ [Documentation Stage](#)
- ▶ [Download tools](#)

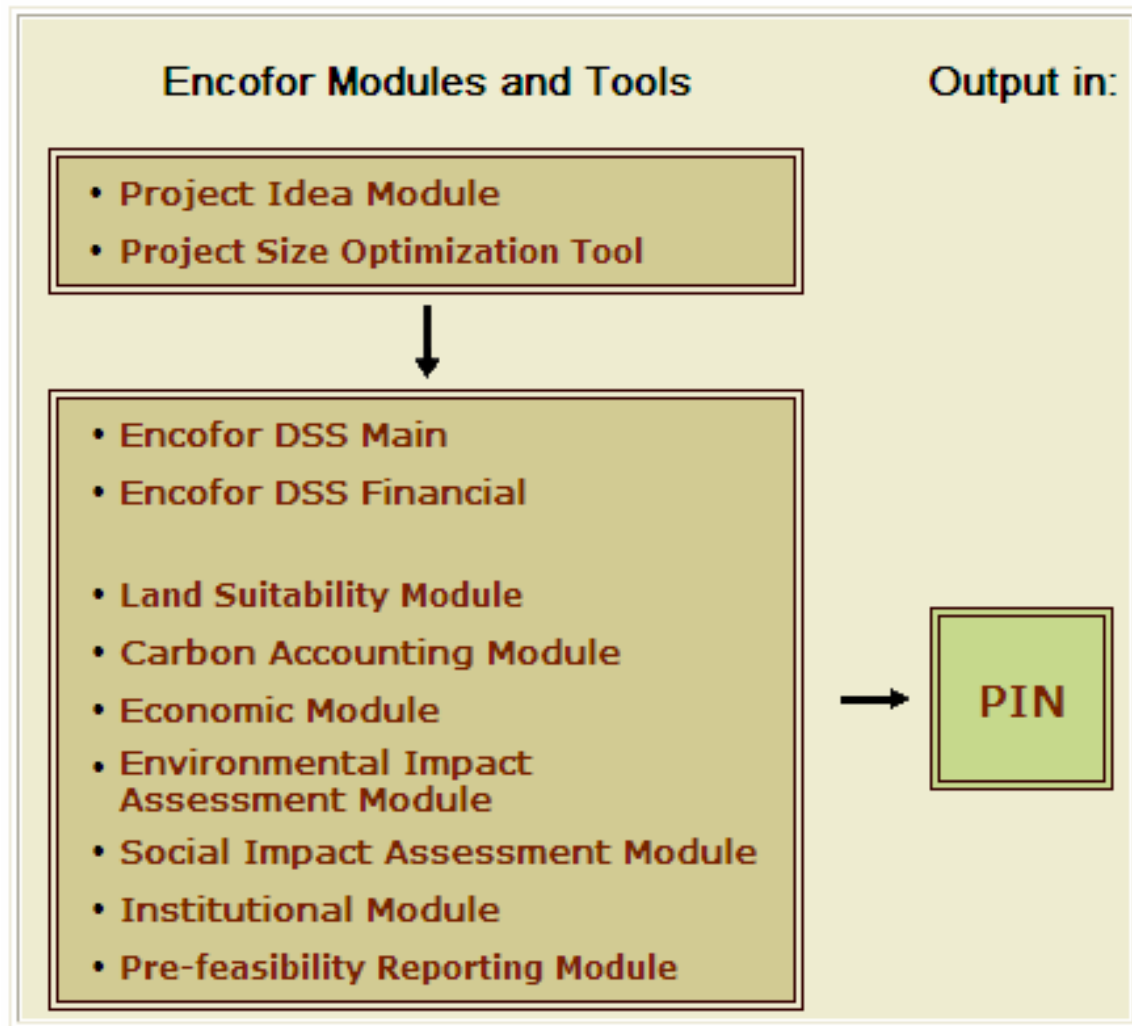

## Encofor Tool Demonstration

These pages will help you to understand the order of work in the pre-feasibility and feasibility stages of project development and their associated tools. The link provides access to tools that have been used in project examples. For empty versions of the tools you can proceed to **Pre-feasibility Stage**, **Feasibility Stage** or **Documentation Stage**.

# CDM-AR project life cycle

# Prefeasibility stage

# Feasibility stage

## Encofor Modules and Tools

- Encofor DSS Main
- Encofor DSS Financial
- Carbon Accounting Module
- Economic Module
- Environmental Impact Assessment Module
- Social Impact Assessment Module
- Institutional Module

- Encofor Plus

# Documentation stage

## Encofor Modules and Tools

- PDD Module

- Contracts Module

# Further programme

---

The Tools (ENCOFOR DSS and others)

The applications (with examples from  
Africa and South America)

Discussion
