African Wildlife Foundation

The African Wildlife Foundation views nature as an essential part of a modern and prosperous Africa. AWF considers climate change and biodiversity loss to be interwoven global challenges that must be addressed putting the people who are on the frontline at the centre of solutions to transition to a more resilient and sustainable future. Founded in 1961 during the African independence movement in order to build our capacity to steward our natural resources, AWF articulates a uniquely African vision, bridging science, education, public policy, and field programs to demonstrate the benefits of conservation and build a future for Africa where people and wildlife thrive.

<https://www.awf.org/>

Formed in February 2020, the African CSO Biodiversity Alliance (ACBA) provides a platform for African CSOs to speak with one voice on issues of sustainable use of nature that contribute to conservation and equitable benefits from nature. The Alliance, whose members are African CSOs, facilitates sharing of lessons, creates opportunities for collaboration, and influences national, regional, continental and global biodiversity policy processes and practices

The global greens

We are the only global organisation with 100+ Green Parties world wide, as well as Members of Parliament, Foundations, Think Tanks and individuals working together for an environmentally and socially just world!

<https://globalgreens.org/>

**TERRE Technology Education Research and Rehabilitation for
Environment Policy Centre (TERRE Policy Centre) India**

TERRE UNIQUE ASPECT

Four Unique Aspects of TERRE

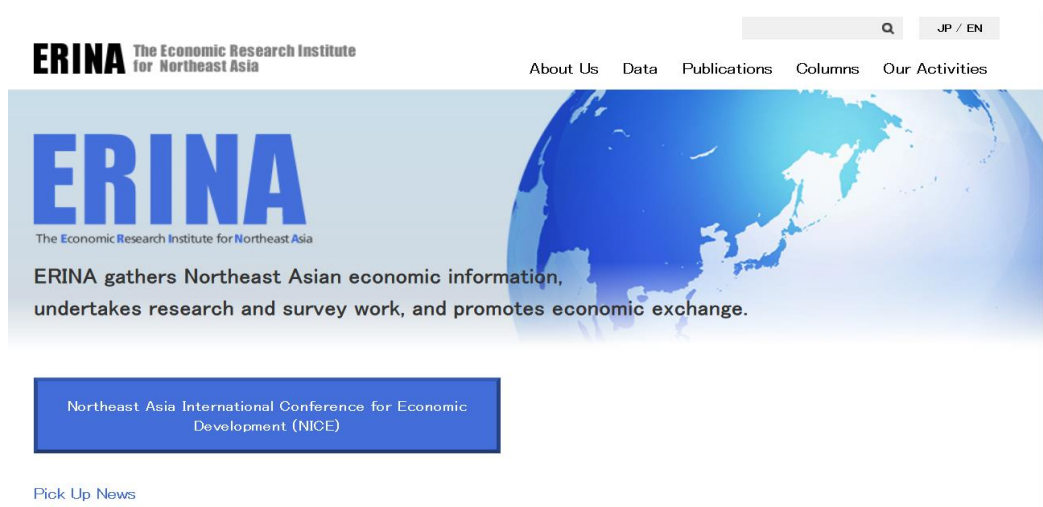

TERRE's mission is to provide credible information, straight answers and innovative solutions in the effort to address global environmental issue like Climate Change, Ozone Layer Protection, Toxic Chemicals and Bio diversity.

Working on an issue that is often polarized and politicized, the Centre provides a forum for objective research and analysis with the aim of developing pragmatic policies and solutions. TERRE is a leading voice for sensible action to address the most pressing global environmental problem of the 21st century. 'Practicing what we preach' and 'To promote the change that we want to see' are TERRE's working messages.

<https://www.terrepolicycentre.com/>

Economic Research Institute for Northeast Asia (ERINA), Japan and Mongolia

To conduct research, and collect and disseminate information on Northeast Asian economies.

To contribute to the formulation and development of the integrated Northeast Asia Economic Subregion, and to the advancement of an international society through this research.
