Programa GEI México

El Programa GEI México es un programa nacional voluntario de contabilidad y reporte de Gases de Efecto Invernadero (GEI). Los participantes del programa entre los que se incluyen empresas y organismos mexicanos y multinacionales reciben la capacitación, el apoyo y las herramientas necesarias que les permitan calcular sus emisiones de GEI, conforme a los estándares reconocidos a nivel internacional. Los participantes llevarán a cabo un inventario anual de sus emisiones GEI y publicarán sus informes en esta página Web. Durante la próxima fase del programa, se identificarán y evaluarán proyectos de reducción de GEI.
