

EAST AFRICAN COMMUNITY

CLIMATE CHANGE PROGRAMS

CLIMATE CHANGE

Contributing to sustainable development in the EAC region through harmonized and coordinated climate change adaptation and mitigation strategies, programmes and actions.

DISASTER RISK REDUCTION

Policies, strategies and measures that can make people, cities and countries more resilient to hazards and reduce risk and vulnerability to disasters.

TERRESTRIAL ECOSYSTEMS

Strengthening regional collaboration efforts in the conservation and management of transboundary ecosystems in the EAC region.

AQUATIC ECOSYSTEMS

Providing technical guidance in the development of regional mechanisms for conservation and management of aquatic ecosystems in the EAC region.

POLLUTION CONTROL

Providing technical leadership in the management and control of pollution and waste in the EAC region.

BIOSAFETY

Ensuring the goals of regional integration are not jeopardized by commercialization and transboundary movements of genetically modified products.
