and Energy

An UNFCCC official side event at the 34th session of the UNFCCC Subsidiary Bodies

Charting a path for nationally appropriate mitigation actions in energy efficiency and transport

Wednesday, 15th June 2011; 20:00 – 21:30
Venue: Room METRO (Ministry of Transport)

This event will provide an overview and analysis of the current NAMA pipeline. In addition, the event will discuss potential NAMAs to promote energy efficiency and sustainable transport, two areas that offer significant potential for emission reductions and sustainable development benefits.

NAMA – State of the Art

Hanna Wang-Helmreich, Wuppertal Institut

Overview of current pilot NAMAs – A comparative analysis of 16 case studies

Energy Efficiency in Buildings

Stefan Thomas, Wuppertal Institut

Best practice policy packages for energy efficiency in buildings -
a stepping stone for NAMAs?

NAMAs in the Transport Sector

Harald Diaz-Bone, GIZ

Conclusions from the TRANSFer project for the development of transport NAMAs

Discussant:

Wendy Aritenang, Ministry for Transport, Indonesia (tbc.)
